

Smart Cart

STORAGE

The Smart Cart helps make popular service parts easy to access, easy to find and easy to organize.

Designed specifically for small parts like wheel studs, lug nuts, oil drain plugs and gaskets, fuses, nuts and bolts, TPMS kits, and tire valves.

The standard Smart Cart consists of 45 tilt-out storage bins and nine hanging storage bins that mount on a heavy-duty mobile cart.

Storage Side One - Designed for Small Service Parts

- Three different tilt-out bin sizes accommodate different sized parts and maximize the storage area.
- Easily move and expand bins to accommodate new parts
- Easily label each bin clearly with the part number

Storage Size Two - Hanging Bins

- Three different storage bin sizes accommodate a wide variety of parts
- Use for tire valves, wheel weights, tools, etc.

Features Include:

- The cart is a heavy-duty steel design with durable powder coat finish and 3" locking casters
- Compact design measures 38"W x 23"D x 58"H
- Hanging bin rack features two-sided slotted uprights doubling the storage capacity
- Tilt-out bins are made from tough ABS plastic
- Spill-proof drawers won't pop open while moving
- Bins include an integrated handle, label holder and a transparent window

Connect tilt-out bins together vertically or horizontally. You can also mount tilt-out bins to the wall.
